

IN THE SPECIFICATION:

Please replace the third paragraph, starting on line 19, with the following amended paragraph:

On the other hand, the amino resin refers to the resin obtained by polycondensation of amino group (-NH₂) and formaldehyde. Representative examples thereof include melamine resin represented by the following structural formula (1), urea resin represented by the structural formula ~~(2)~~ (3), aniline resin represented by the structural formula ~~(3)~~ (2), and formalin resin. The amino resin as described above is commercially available in a form of solid or powder.
